CONTRACT ADMINISTRATION: Sharafat Yousufzai | 703-328-8928 |

BUSINESS SIZE: Small

Women Owned Business, Asian-Pacific American Owned, Minority-Owned Business, SBA Certified Small Disadvantaged Business, Women-Owned Small Business.

Price list current as of Modification #PA-0022 effective September 22, 2021

Prices Shown Herein are Net (discount deducted)

Customer Information

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SIN	Description
54151HEAL	Health Information Technology Services
54151S	Information Technology Professional Services
54151HACS	Highly Adaptive Cybersecurity Services (HACS)
OLM	Order-Level Materials

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract.

SIN	Part#	GSA Price
54151HEAL	HIT System Administrator	\$103.92/hour
54151S	Technical Writer/Editor	\$86.01/hour
54151HACS	Cyber Hunter	\$119.40/hour

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. **Not applicable to products**

2. Maximum order.

SINs	Maximum Order
54151HEAL	\$500,000
54151S	\$500,000
54151HACS	\$500,000
OLM	\$250,000

3. Minimum order \$100.00

4. Geographic coverage (delivery area) **50 States**

5. Point(s) of production. **N/A for Services**

6. Discount from list prices or statement of net price. **Government Net Prices (discounts already deducted)**

7. Quantity discounts. **None**

8. Prompt payment terms. **Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. Net 30.**

9. Foreign items. **N/A for Service**

10a. Time of delivery. **To be determined at Task Order Level**

10b. Expedited Delivery. **Contact Contractor**

INNOVATIVE NETWORK TECHNOLOGY

- 10c. Overnight and 2-day delivery. **Contact Contractor**
- 10d. Urgent Requirements. **Contact Contractor.**
- 11. F.O.B. point(s). **To be determined at Task Order Level.**
- 12a. Ordering address(es). **Same as Contractor.**
- 12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.
- 13. Payment address(es) **Same as Contractor.**
- 14. Warranty provision. **Standard Commercial Warranty.**
- 15. Export packing charges, if applicable. **N/A**
- 16. Terms and conditions of rental, maintenance, and repair (if applicable). **N/A**
- 17. Terms and conditions of installation (if applicable). **N/A**

- 18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). See Warranty for Repair Parts, If Applicable. **N/A**
- 18b. Terms and conditions for any other services (if applicable) **N/A**
- 19. List of service and distribution points (if applicable). **N/A**
- 20. List of participating dealers (if applicable). **N/A**
- 21. Preventive maintenance (if applicable). **N/A**
- 22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). **None**
- 22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found. The EIT standards can be found at: <https://www.section508.gov/> **N/A**
- 23. Unique Entity Identifier (UEI) number. **137091737**
- 24. Notification of registration in System for Award management (SAM) database.
Contractor is Active in SAM Exp Date: 12/30/2021

INNOVATIVE NETWORK TECHNOLOGY

Price and Description of Provided Services:

SIN	Labor Category Title	Description	Minimum Education	Minimum Years of Experience	Price Offered to GSA (including IFF)
54151HEAL	HIT Program Manager	Enable the Program team to empower client leadership to propose Plan and control investments to derive optimum business value; Use consistent managerial and financial tool set across business efforts to make it easier to share information and deploy standardized HIT programs. Demonstrate experienced team leadership to maximize cost savings and productivity by reducing wasteful spending and eliminating non-strategic or redundant taskings. Maintain responsibility for HIT project(s) overall contract and client scope success.	Bachelors	8	\$197.90
54151HEAL	HIT Project Manager	Lead and Manage the HIT program team and their projects. • Support the ability to interrelate various workflow practices with HIT solutions while coordinating with multiple stakeholders; • Guide Information Assurance (IA)/Cybersecurity efforts related to HIT systems to achieve client strategic aims. Maintain responsibility for project reviews and overall contract progress and oversees and interprets implications of IT design to clinical and business requirements.	Bachelors	8	\$173.56
54151HEAL	HIT Subject Matter Expert Functional 1	Responsible for the planning, execution, analysis and reporting of web pages. Consulting on and about new and related	Bachelors 5	5	\$121.41

		<p>older technical solutions and business experience while gathering IT. Performance and system data attributes. Produce effective business and functional requirements and support HIT Project Managers in defining the scope. Timeframe and resources needed to drive HIT projects.</p>			
54151HEAL	HIT Subject Matter Expert Functional 2	<p>Work on the DHA HIT portfolio and requirement applications functionality. Understands the new and related older technical experience directly related to the DHA HIT portfolio and requirement applications functionality. Assist functional community, client application owners and other stakeholders with analysis. Evaluation and preparation of recommendations for HIT system improvements optimization, development and/or maintenance efforts in the following specialties: Information Systems Architecture and Networking support; Risk Management/Electronic Record data analysis. Project lifecycle management and Software development assistance.</p>	Bachelors	7	\$140.43
54151HEAL	HIT Subject Matter Expert Functional 3	<p>Responsible for DHA client's enterprise-wide applications functional and HIT user communities' needs along with project management experience that aid in crafting scope definition establishing project timeframes and monitoring resources. Consult with HIT sites to ensure clients are achieving</p>	Bachelors	10	\$143.64

		desired program/project results.			
54151HEAL	HIT Subject Matter Expert Functional 4	Preform Devisable with new and related older technologies related to DHA client's enterprise-wide applications functional and HIT user communities' needs. Project management experience that aids in crafting scope definition Establishing project timeframes and monitoring resources along with interpersonal, facilitation negotiation, and leadership skills necessary to required area of expertise (per Client requirements).	Bachelors	12	\$184.39
54151HEAL	HIT Business Process Engineer – Senior	business assignments along with specialized experience, to include facilitation, training, methodology development and evaluation. Process reengineering across all phases of identifying best practices Agile.	Bachelors	8	\$138.22
54151HEAL	HIT System Administrator	Manage the daily activities of configuration and operation of HIT business systems which may be mini, or client/server based. Provide assistance to users in accessing and using HIT business and clinical systems.	Bachelors	3	\$99.49
54151HEAL	HIT System Administrator – Senior	Administrate UNIX or open-systems compliant systems or AMDAHL/IBM mainframe systems. Supervise and manage the daily activities of configuration and operation of business systems which may be mini, or client/server based while helping users in access and use complex HIT systems to meet the needs of	Bachelors	4	\$118.12

		functional and clinical stakeholders.			
54151HEAL	HIT Database Administrator – Middle	Review, evaluate, design, implement and maintain agency/organization’s databases. Resolve complicated database performance and capacity issues, replication, and other distributed data issues.	Bachelors		\$130.99
54151HEAL	HIT Information Assurance Officer (IAO)	Provide technical, managerial, and administrative direction to help complete the Risk Management Framework (RMF) and in the following specialties relating to HIT systems’, Authority To Operate (ATO), RMF, DICAP, Risk Assessment. Annual Review processes and Certification and Accreditation (C&A) practice.	Bachelors	3	\$118.12

54151HEAL	HIT Security Subject Matter Expert (SME)	Directly supervise IT IA software/system development efforts with least 5 years of experience directing new technology and research and development (R&D)-based programs. Ensure that all systems are working at optimal levels and offer support to application development as it relates IA policy adherence.	Bachelors	8	\$171.29
54151HEAL	HIT Programmer – Senior	Perform complex programming assignments requiring knowledge of	Bachelors	4	\$126.92

		established programming procedures and data processing requirements. Maintain and modify programs to client requirements and to required contract scope.			
54151HEAL	HIT Design and Development Engineer, Senior	Provide technical and management leadership on major tasks or consulting assignments. Analyze and design business systems for different application needs: financial, accounting, human resources, and other related HIT business enterprise-wide solutions. Provide system design and developer expertise for recommend solutions to meet continuous process improvement strategies. strategic planning, change management projects and performance measures related to Health IT engagements.	Bachelors	10	\$138.52
54151S	Program/Project Manager	Technology and Project Management providing guidance to project teams and management in directing the development of new IT applications and formulating contingency plans in areas such scheduling, budgeting, resource allocation and requirements management.	Bachelors	8	\$128.15

54151S	Senior System Analysis	Senior System Analysis oversees the systematic approach and coordination with all response team members.	Bachelors	3	\$105.02
54151S	System Administration / Information Assurance Officer	Information Assurance Officer (IAO) oversees the systematic approach and coordination with all response team.	Bachelors	3	\$105.02
54151S	Subject Matter Expert (SME)	Working with IMs to capture their issues with Subject Matter Expert (SME) modules, projects and system information data entered into client tools.	Bachelors	7	\$128.15
54151S	Subject Matter Expert – Level 2	Develops requirements from a project's inception to its conclusion in the subject matter area for simple to moderately complex systems. Assists functional community, client application owners and other stakeholders with analysis, evaluation and preparation of recommendations for system improvements optimization, development, and/or maintenance efforts in the following specialties: Information Systems Architecture, Networking; Risk Management/Electronic Analysis; Lifecycle Management, Software development methodologies, and Testing support.	Bachelors	8	\$148.23

54151S	Subject Matter Expert – Level 3	<p>Develops requirements from a project’s inception to its conclusion in the subject matter area for simple to moderately complex systems. Assists functional community, client application owners and other stakeholders with analysis, evaluation and preparation of recommendations for system improvements optimization, development, and/or maintenance efforts in the following specialties: Information Systems Architecture, Networking; Communications protocols, Risk Management/Electronic Analysis, Software; Lifecycle Management, Software Development methodologies, and Modeling.</p>		10	\$151.62
54151S	Subject Matter Expert – Level 4	<p>Demonstrated experience and ability to provide technical management and direction for problem definition, analysis and requirements development and implementation for complex systems in the subject matter area. Ability to provide workable recommendations and advice on system improvements, optimization and maintenance in the</p>		12	\$200.63

		<p>following areas: Information Systems Architecture, Automation, Telecommunications, Networking, Communication Protocols, Software, Electronic Email, Modeling and Simulation, Data Storage and Retrieval.</p>			
54151S	Business Process Engineer – Senior	<p>Applies process improvement and reengineering methodologies and principles to conducting process modernization projects. Responsible for effective transitioning of existing project(s), facilitating project teams' accomplishment of project activities and objectives. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Provides group facilitation, interviewing, training, and additional forms of knowledge sharing. Serves as key coordinator among multiple project teams to ensure enterprise-wide integration of reengineering effort. This labor category shall be used in support of an IT effort.</p>		8	\$145.90
54151S	System Administrator -	Collaborates with multiple stakeholders to	Bachelors	4	\$124.36

	Senior	ensure application server accessibility. Technical lead to install and maintenance of applications, databases, server support in conjunction with Government Network Operations Center by managing Access Control, maintain System Integrity, and performing Security updates.			
54151S	Database Administrator - Middle	Responsible for all activities related to the administration of computerized databases. Supports analysis and development of complex relational database systems, designs and builds relational databases, performs archival/recovery design and implementation while contributing to IT strategies as it relates to data acquisitions, archive recovery, and implementation of a database in support of client Database support tasks. Conducts quality control and auditing of databases in a client/server environment to ensure accurate and appropriate use of data and advises users on access to client/server databases.	Bachelors	2	\$138.26
54151S	Security Subject Matter Expert	Responsible for all activities addressing	Bachelors	8	\$180.82

	(SME)	enterprise system Cybersecurity requirements as it pertains to performing all Application, Database, Operating systems Scans and Manual checklists/STIGs to establish baseline vulnerability findings, preparing mitigation evidence and artifacts as part of validation efforts, posting artifacts onto eMASS while leading a security team in updating and DoD Risk Management Framework (RMF) NIST IA Controls / artifacts. Knowledgeable about Defense Information Systems Agency (DISA) Security Technical Implementation Guides (STIGs) and Information Assurance Vulnerability Management (IAVM) mandates and complaint to DoD security policies and mandates.			
54151S	Programmer – Senior	Designs, develops, enhances, debugs, and implements software. Troubleshoots production problems related to software applications. Researches, tests, builds, and coordinates the conversion and/or integration of new products based on client requirements. Designs and develops new software products or major enhancements	Bachelors	4	\$133.98

		to existing software while addressing problems of systems integration, compatibility, and multiple platforms to meet client requirements			
54151S	Design and Development Engineer, Senior	Consults with project development teams and end users to identify application requirements. Performs feasibility analysis on potential future projects to management and assists in the evaluation and recommendation of application software packages, application integration and testing tools. Instructs, assigns, directs, and checks the work of other software developers on development team. Integrates functional and technical teams to facilitate problem resolutions with software design, development and implementation and responds to suggestions for improvements and enhancements.	Bachelors	10	\$146.23
54151HACS	Cybersecurity Subject Matter Expert (SME)	Serves as the client's Cybersecurity engagement manager for specific project areas and assumes responsibility for client communications related to communicating technical concerns. The contractor's liaison and Point of Contact (POC)	Bachelors	15	\$251.88

		with the Contracting Officer's Technical and delegated government representatives responsible for managing the Security program team and daily operations of security taskers and/or serves in a role as a highly experienced Technical expert to ensure client comfort and feasibility with Cybersecurity solutions. Other experience includes accountability for supervising designated security resources and enforcing quality control practices for each Cybersecurity project.			
54151HACS	Cybersecurity Manager	Serves in the role of project team leader over assigned support areas, often filling the position of project team lead and instructing, directing, and monitoring the work of other cybersecurity staff or serves in a role of an experienced Cybersecurity technical expert. Conducts analysis of work plan completeness, prepares status reports, and supports quality control practices. Performs analyses of client issues, assesses appropriate alternatives, and recommends solutions. Communicates client expectations to project team, and escalates	Bachelors	8	\$241.81

		<p>appropriate issues to senior level project staff. Role could include plan of action and milestone analysis, privacy analysis, policy analysis.</p> <p>Documentation support could include scan results, system security plans (SSPs), system assessment plans (SAPs), system assessment reports (SARs), contingency plans, etc.</p>			
54151HACS	Cybersecurity Enterprise Architect	<p>Provides senior-level analytical and program support and is focused on providing high performance work. Participates with investigations into specific technology or solution issues and research and pilot's new technologies. Serves as a Point of Contact (POC) for engineering efforts while assisting in maintaining compliance with the customer's policies and guidelines duties that include:</p> <p>Providing administrative support to enterprise security devices and supporting various applications and implementing associated security standards that allow for configuration and validation of secure complex systems; testing security products and systems</p>	Bachelors	10	\$239.31

		to detect security weakness; and designing and/or integrating Information Assurance (IA) and security systems and system components including those for networking, computing, and enclave environments			
54151HACS	Cybersecurity Program/Project Manager	Primary responsibilities are client service delivery and operations execution on projects ranging in scope including, but not limited to; technology strategy, architecture, and service management; Cybersecurity; systems integration; data analytics and visualization; application development and maintenance; help desk operations; infrastructure/network design and management; and cloud (e.g., software, platform, infrastructure as a service). Possess competencies in multiple Cybersecurity technologies, business processes, or combination of both. Works independently to execute a portion of the project scope, and assist in Cybersecurity engagements of enterprise size complexity, lead review of deliverables and	Bachelors	8	\$210.58

		other taskers for quality and accuracy. The role is for a specific Cybersecurity client engagement and employment is tied to ongoing Federal client demands, as related to Cybersecurity taskers			
54151HACS	Cybersecurity Engineer	Provides senior-level analytical and program support and is focused on providing high performance work. Participates with investigations into specific technology or solution issues and research and pilot's new technologies. Serves as a Point of Contact (POC) for engineering efforts while assisting in maintaining compliance with the customer's policies and guidelines duties that include: Providing administrative support to enterprise security devices and supporting various applications and implementing associated security standards that allow for configuration and validation of secure complex systems; testing security products and systems to detect security weakness; and designing and/or integrating Information Assurance (IA) and security systems and system components	Bachelors	8	\$196.47

		including those for networking, computing, and enclave environments			
54151HACS	Cybersecurity Senior Consultant	Provides senior-level analytical and program support and is focused on providing high performance work. A Cybersecurity Senior Consultant contributes to engagement work plan development and often leads less complex engagement tasks to completion within scope and budget. Serves as an analytical correspondent within engagement team; Assumes responsibility for contributing to work plan development, reaching engagement milestones, and may lead specific Cybersecurity project tasks; Applies business modeling, process modeling, and business design techniques to conduct analysis of appropriate tools to satisfy program security requirements, and creates project deliverables. Formulates diagnoses through financial or statistical modeling, assesses appropriate alternatives, and offers conclusions to Project Manager. This position performs analyses and makes diagnoses, as well as defines	Bachelors	5	\$174.09

		symptoms and problems, and develops conclusions			
54151HACS	Risk Vulnerability Assessment Analyst	Provides analytical and program support. Completes assigned Cybersecurity engagement tasks within the project scope and budget, while meeting deliverable requirements. Supports engineering design teams by assessing network and system security design features and making recommendations concerning overall security accreditation readiness and compliance and best practices. Assists interoperability assessment teams and present written analysis and conclusions in all phases of analysis as well as develops and analyzes system and security documentation.	Bachelors	7	\$159.80
54151HACS	Cybersecurity Analyst (Intermediate)	Analyzes data and systems architecture, creates designs, and implements information systems solutions. Leads project team and mentors junior Cybersecurity Analysts in meeting program objectives timely and effectively. Cybersecurity Analyst Intermediate guide junior level Cybersecurity Analysts through certification	Bachelors	3	\$141.05

		<p>and accreditation guidance for applications, systems, and networks in accordance with appropriate security policies. Helps Cybersecurity Analysts develop materials and provide instructions to the team for the C&A activities at the appropriate skill levels to accomplish mission goals. Leading the tasks, the Cybersecurity Analyst (Intermediate) perform and assists the team in performing plan of action and milestone analysis, privacy analysis, policy analysis. Documentation supports include scan results, system security plans (SSPs), system assessment plans (SAPs), system assessment reports (SARs), contingency plans etc.</p>			
54151HACS	Cybersecurity Project Delivery Specialist	<p>Primary responsibilities are to have a fundamental understanding of Cybersecurity best practices while taking ownership of tasks and/or project workstreams and guiding more junior professionals. Supports and/or leads team efforts on engagements related, but not limited to; technology strategy, architecture, and service management;</p>	Bachelors	5	\$136.70

		<p>Cybersecurity; systems integration; data analytics and visualization; application development and system maintenance; help desk operations; infrastructure/network design and management; and cloud (e.g., software, platform, infrastructure as a service). Role requires performing analysis and diagnosing client issues. Expected to actively share knowledge and acquired skills with team members through formal and informal channels. Assist in proposal development as required on an as-needed basis. Contributes to deliverables, reviews the work of others for quality and accuracy. This role is for a specific client Cybersecurity engagement and employment is tied to ongoing Federal client demand.</p>			
54151HACS	Cybersecurity Incident Response Analyst	<p>Responsible for the cyber security best practices or in a very particular or specialist field. The individual will provide security services to business and IT programs pertaining to system design, engineering and implementation while promoting the</p>	Bachelors	3	\$129.47

		<p>protection, integrity and confidentiality of customer, vendor, employee, and business information in compliance with organization policies and standards.</p> <p>Performs real-time proactive event investigation on various security enforcement systems such as SIEM, Anti-virus, Internet content filtering/reporting, malware prevention, Firewalls, IDS & IPS, Web security, antispan, etc.</p>			
54151HACS	Cybersecurity Analyst	<p>Analyzes data and systems architecture, creates designs, and implements information systems solutions.</p> <p>Cybersecurity Analyst is a member of project team and is mentored by Cybersecurity Analyst Intermediate to ensure program objectives are met in a timely and efficient manner. Cybersecurity Analyst are guided through certification and accreditation steps for applications, systems, and networks in accordance with appropriate policies.</p> <p>Assists security architecture, policy, and design guidance for systems and networks and helps develop materials and performs the plan of action and</p>	Bachelors	1	\$125.94

		<p>milestone analysis, privacy analysis, policy analysis.</p> <p>Documentation supports include scan results, system security plans (SSPs), system assessment plans (SAPs), system assessment reports (SARs), contingency plans etc.</p>			
54151HACS	Cyber Hunter	<p>Knowledge of advanced networking protocols and defense-in-depth devices and proficiency in industry standard cyberspace threat hunting methodologies, to include expertise in current industry standard Security Information and Event Management/Security Orchestration and Automated Response platform to perform full packet capture, system log, and network artifact analysis.</p> <p>Perform analysis of threats capable of impacting resources being serviced; review programmatic, technical, and Information Assurance (IA) Certification and Accreditation documentation and daily review of open source/unclassified and classified threat warnings and bulletins.</p> <p>Other specific tasks are: Execute, draft, edit, and maintain Standard Operating Procedures</p>	Bachelors	1	\$119.39

		<p>(SOPs) documentation, Review IA certification and accreditation documentation, programmatic, and technical documentation for Network Protection Suites, Develop custom Indicators of Compromise (IoC) based upon open-source, unclassified, and classified intelligence and assist in the daily review of cyber threat warnings, bulletins, alerts, and incident reporting documentation and databases produced by the Director of National Intelligence (DNI), National Intelligence Counsel (NIC), Defense Intelligence Agency (DIA), National Security Agency (NSA), United States Strategic Command (USSTRATCOM), United States Cyber Command (USCYBERCOM), Joint Forces Headquarters (JFHQ), military service cyber intelligence support activities, Central Intelligence Agency, Department of Homeland Security, US Computer Emergency Response Team, and coalition and allied partners.</p>
